Sedera Andriamanga

AI & AUTOMATION ENGINEER

I build automations and AI agents that plug into the software a company already uses, starting with Odoo. Two years of shipping Odoo projects to production taught me to plan from the demo stage for what breaks in real life, like a third-party service going down or access rights set up wrong. Available now for a full-time role or a freelance contract, remote or with relocation to France, Belgium or Switzerland.

EXPERIENCE

Freelance AI and automation engineer
July 2026 – present

Antananarivo, remote

I build AI automations and Odoo modules and publish them as open source (see Public projects).

Full-stack Odoo developer
April 2024 – June 2026

MTechniix, Madagascar, hybrid

61 projects shipped to production on Odoo 12 to 19: purchasing, sales, inventory, invoicing, CRM and custom business modules, including for clients still running older versions. Over **4,100 code contributions** in the last twelve months of the role.

Web development internship
April – September 2022

Ministry of Industrialization, Madagascar

PUBLIC PROJECTS

n8n-bridge: connecting Odoo to your automations
When a sale is confirmed or an invoice is posted, Odoo notifies n8n on its own, and n8n can in turn create or update data in Odoo. If n8n is down, nothing is lost: deliveries are retried later. A clean-room demo with no client code.

Odoo 17 · HMAC-signed webhooks · queue and cron · API key access
github.com/seder2610/n8n-bridge

LinkedIn prospecting agent
You paste in a prospect's profile and it writes personalised outreach messages, in a short or longer version, then files them in Notion and Google Sheets. Preparing a message goes from about 10 minutes to under 30 seconds.

n8n · OpenAI · structured JSON output · Notion · Google Sheets
github.com/seder2610/linkedin-prospecting-agent-n8n

Automatic quotation follow-ups in Odoo
A quotation that gets sent often goes nowhere because nobody remembers to chase it. This module follows up with the customer after 3, 7 and then 14 days and stops as soon as they reply. Sales reps see at a glance which quotations are still waiting.

Odoo 18 · Python · scheduled job · email templates
github.com/seder2610/sale-quote-followup

EDUCATION

Master 1 in Computer Science
2024

ISPM Antsobolo, Antananarivo (4-year degree)

TECHNICAL SKILLS

Python · n8n · OpenAI API · Claude API · LangChain (n8n) · JavaScript · Odoo 12 → 19 · ORM · XML views · PostgreSQL · REST API · Webhooks HMAC · Docker · Git · Linux · Prompt engineering

LANGUAGES

French: fluent

English: professional (written)

Malagasy: native

AVAILABILITY

Immediate, for a full-time role or a freelance contract. Time zone UTC+3, 1 to 2 hours ahead of Paris.

All three projects are public and can be checked on GitHub. Full portfolio: sedera-pro.com
